Spanner Road Vegetation Management & Cleaning

Financed by the OBF at a cost of
R 120 000

SPANNER ROAD WATER CANAL CLEAN-UP

The OBF funded a four-week project at a cost of R120 000 for the cutting of vegetation and the cleaning of the area next to the water canal in Spanner Road. The project was also done in collaboration with the City of Ekurhuleni in terms of removing and disposing of the cuttings and rubble.

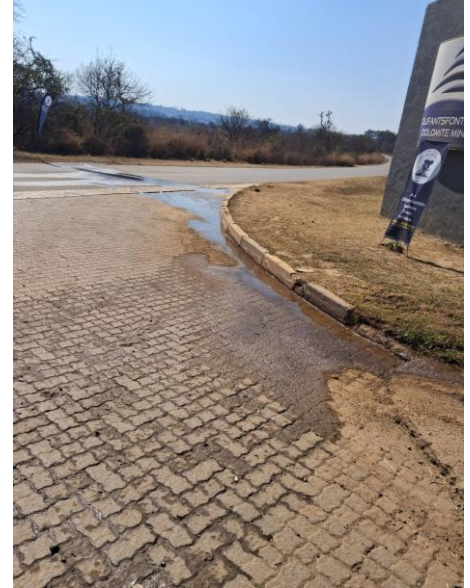

OBF Clean-up Project

The OBF aims at bringing new life to the Olifantsfontein Industrial area through a thorough clean-up twice a week, to restore pride and improve the general cleanliness of the industrial area with the appointment of “We Do Public Space” funded by the OBF at a cost of R37 000 per month.

Key activities :

- Cutting of grass and overgrown vegetation,
- Cleaning of road surfaces, verges, sidewalks and intersections.
- Herbicide treatment of sidewalks, centre islands and road verges at intervals as and when required.
- Tree felling, pruning and bush maintenance.
- Litter picking and rubble removal.
- Vegetation management, cleaning, clearing and litter picking at key infrastructure points such as electrical substations and mini substations.
- Removing and disposal of all collected refuse and waste material to an official registered/ landfill site or transfer station.
- General area upliftment and maintenance

OBF Street Bin Project

Promoting a cleaner and investment-friendly environment.

As part of the OBF's ongoing initiative to maintain a cleaner industrial area, the OBF launched the Street Bin Project sponsored by business.

SERVICE DELIVERY AND INFRASTRUCTURE NEGLECT!

The deterioration of key infrastructure, unreliable water and electrical supply is debilitating the conducting of effective business. The general aesthetics of the Olifantsfontein industrial area is not contributory towards promoting investment, economic growth and job opportunities conducive to a sustainable business environment and prosperous community.

**COE
INFRASTRUCTURE
MAINTENANCE
AND SERVICE
DELIVERY
